Dear

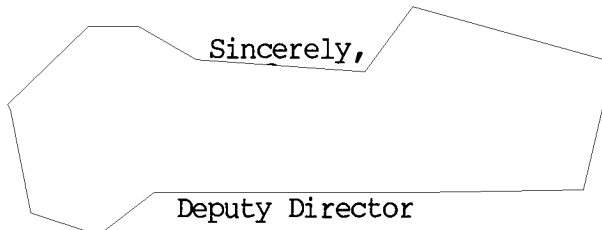

STAT

Now that your summer assignment with the Headquarters Engineering Division has ended, I'd like to thank you for the help you gave us with our Configuration Management and administrative support activities. The time and effort you spent cataloging and alphabetizing technical manuals, and logging them into a PC database is greatly appreciated.

I trust that you are pleased with your accomplishments and that you consider them a valuable learning experience. We enjoyed having you here this summer and wish you good luck during your freshman year at Dartmouth.

Sincerely,

Deputy Director
